Product Image

Description

The 0357SW is a work knife built for tough conditions.

The 3.25 inch drop point blade is made of high-end CPM 20CV steel which offers reliable thread retention and corrosion resistance. The scratches blend with the StoneWash finish of the blade. The black G10 handle is worked on both the front and the back. The 0357SW is an assisted knife, equipped with ZT's SpeedSafe system: just pull the flipper back to easily open the knife every time. The blade locks into place with a rock solid coating lock. A reversible pocket clip allows for ambidextrous carrying.
