## Description

---

Start where others leave off – this is the motto of the BNK 3, which closes the gap between a normal utility knife and a machete. Designed for heavy chopping and slashing, the modified 4,7 mm thick khukri blade is ready for big jobs of all kinds. The satin-finish full tang construction made of 440C steel weighs a hefty 580 g, but the generously dimensioned handle makes it easy to manage. The pakkawood handle scales are milled to an ergonomically optimum shape. A deep recess for your index finger and a finger guard ensure safe work. The Black Nature Knife 3 comes with a lanyard hole and a reinforced nylon sheath so that you can take it wherever you need it.
